FCSIT

DATA

SYSTEMS

Background

Students reach out to lecturers about assignments, lectures, exams and meetings

They use email, WhatsApp, Microsoft Teams, Spectrum and Telegram

Lecturers handle many courses and large classes

Course materials are on Spectrum, but students still message lecturers directly

Problem Statement

No central Q&A platform at FCSIT
(past answers get lost in chats)

Repeated questions can't be detected
(too many apps used)

Spectrum can't answer questions

Lecturers reply to each message one by one

Shy students don't ask

No easy meeting booking

Proposed System

Smarter help.
Better together.

1 **Ask**
Pick a course or General, ask the chatbot

2 **AI Search**
AI finds answers from course & faculty docs first

3 **Escalate**
Post anonymously & pick a lecturer

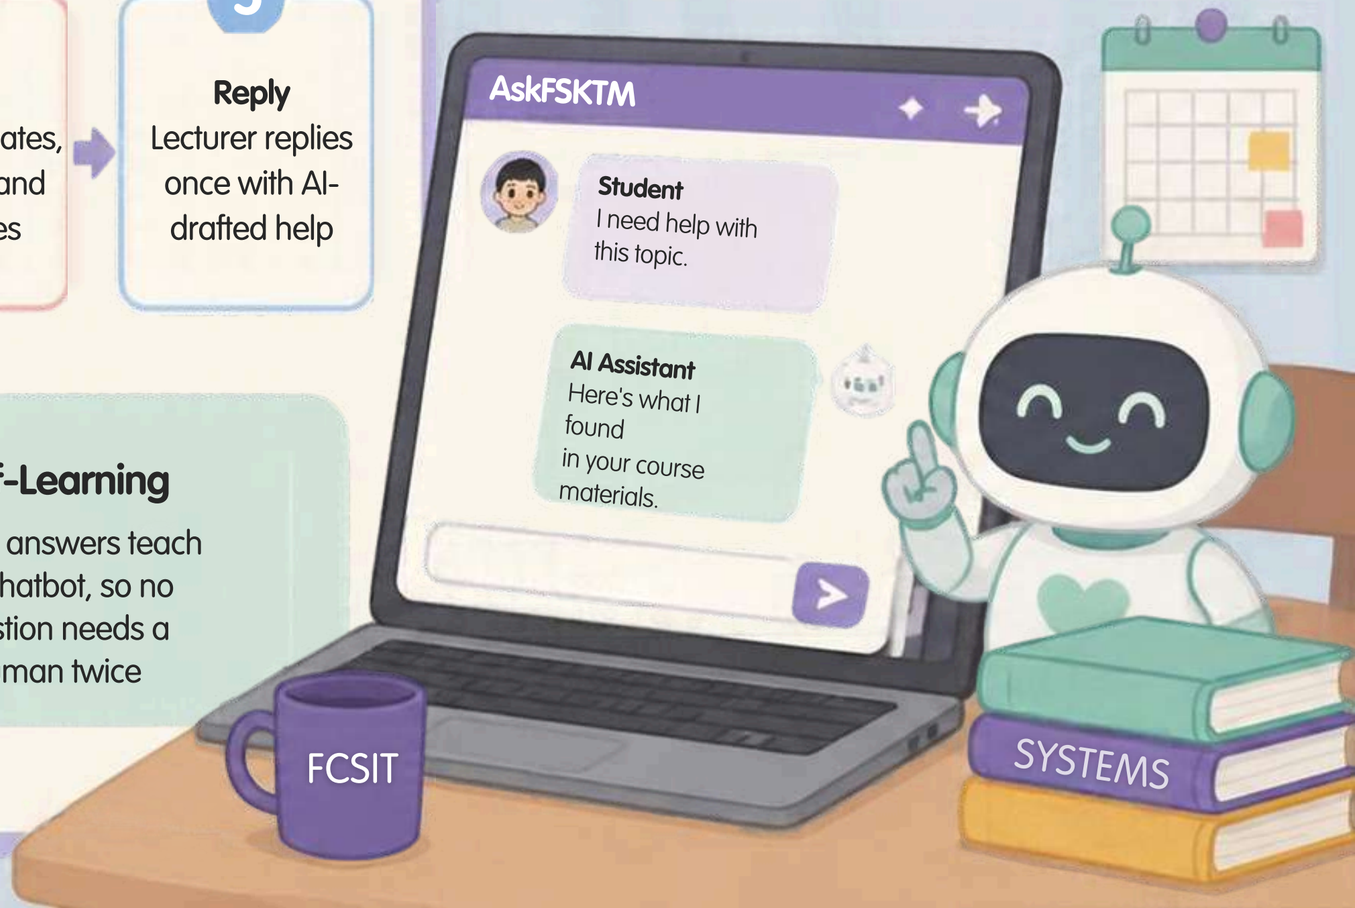

4 **Smart AI**
Detects duplicates, filters spam and summarises

5 **Reply**
Lecturer replies once with AI-drafted help

Schedule
Book slots or lecturer proposals, with reminders

Dashboards
For students, lecturers & admins (incl. support tickets)

Self-Learning
Pinned answers teach the chatbot, so no question needs a human twice

Justification

AskFSKTM

Here to help, every step!

For students:	**faster answers and one place to ask**
For lecturers:	**save time with sorted messages, one reply to many & AI help**
For the faculty:	**more organised student-lecturer communication**

Project Objectives

01 Understand student-lecturer communication challenges

02 Build an anonymous, moderated Q&A helpdesk

03 Deliver an AI chatbot for instant answers anytime

04 Reduce lecturer & admin workload with AI and an admin panel

05 Simplify meeting arrangements between students and lecturers

Project Scope

AskFSKTM
Here to help, every step!

AskFSKTM helps the FCSIT community get the right answers, from the right people, in the right place.

In scope

- Q&A helpdesk with course selection and General area
- Anonymous, AI-moderated posting
- Choose a lecturer to reply
- AI chatbot (course & faculty docs)
- AI duplicate & spam filtering
- AI summaries + reply once
- AI draft-reply assistant
- Pinned answers teach the chatbot
- Meeting booking & proposals
- Admin: users, tickets, moderation
- Dashboards for all three roles

Out of scope

- Mobile apps
- Grades and marks
- Live MAYA/Spectrum integration (mocked)
- Announcements & timetables (Spectrum)
- Use outside FCSIT

Thank You!

We appreciate your time and attention. If you have any questions, feel free to ask!

Let's build a smarter campus together.
